

Clinical Neuroscience Bern

Friday, 14th of June 2019, 9.00 – 17.45
University of Bern, UniS Room A003
Schanzeneckstrasse 1

14th
Annual Meeting:
G-protein-coupled
receptors (GPCRs):
From Molecules
to Systems

Dear Scientists

We are very pleased to invite you to the 14th annual meeting of the university network Clinical Neuroscience Bern (CNB). This year's meeting with the overall topic «G protein-coupled receptors (GPCRs): From Molecules to Systems» will take place on the 14th of June 2019 at UniS, University of Bern.

CNB was founded by research groups of the Faculty of Human Sciences and the Faculty of Medicine in 2004 with the goal to foster neuroscientific research in Bern. In 2016 the Vetsuisse Faculty joined the network. Currently, 68 research groups of the three faculties are represented in the network. The research topics of the individual groups include basic research aiming to understand the function of individual neurons, analysis of functional systems but also clinical studies and the development of new technologies.

With the CNB annual meeting we aim to improve information exchanges and promote cooperation with internal and external partners. This year's program includes keynote lectures of Prof. Chris Tate (MRC Laboratory of Molecular Biology, UK) and Prof. Ron Stoop (University of Lausanne, CH).

Further, the congress provides young researchers with the opportunity to present their ideas and research achievements by talks (selected from submitted abstracts), during the poster session, or with a contribution to one of the different symposia. We kindly invite members and non-members to register and to submit abstracts. Scientists from other faculties and universities are also very welcome to attend.

We hope that the program piques your interest and are very much looking forward to welcoming you at the CNB annual meeting 2019.

Prof. Dr. med. Claudio Bassetti
CNB Strategic Board

Prof. Dr. Benoît Zuber
CNB Executive Committee

Prof. Dr. Antoine Adamantidis
CNB Executive Committee

Program 14th Annual Meeting

GPCRs: From Molecules to Systems

Clinical Neuroscience Bern

Friday, 14 June 2019, 9h00 – 17h45
University of Bern, UniS Room A003, Schanzeneckstrasse 1

08.00 – 09.00 **Registration and Poster Setup**

09.00 – 09.15 **Welcome address**
Claudio Bassetti, CNB Strategic Board

09.15 – 10.15 **Key-note 1**
G protein-coupled receptors: the structural basis for their pharmacology
Chris Tate, MRC Laboratory of Molecular Biology, UK
Chair: Benoît Zuber

10.15 – 10.45 **Coffee break**

10.45 – 11.45 **Short talks, 4 selected abstracts à 10 minutes**
Chair: Benoît Zuber

11.45 – 12.45 **Key-note 2**
How oxytocin can transform the processing of fear
Ron Stoop, University of Lausanne, CH
Chair: Antoine Adamantidis

12.45 – 14.15 **Lunch**

13.15 – 14.15 **Poster session**

14.15 – 15.15 **Parallel symposium I**
Opsins, the prototypical GPCRs: evo-devo, visual cycle, optogenetics and machine learning
Chairs:
Pascal Escher, Achim Stocker
Room A003

Parallel symposium II
Translational research approaches in neuroimmunology
Chairs:
Robert Hoepner, Lisa Schrewe
Room A022

15.15 – 15.45 **Coffee break**

15.45 – 16.45 **Parallel symposium III**
Stroke
Chairs:
Britta Engelhardt, Urs Fischer
Room A003

Parallel symposium IV
Emotional processing in amygdalar and hippocampal neural circuits
Chair:
Stéphane Ciocchi
Room A022

17.00 – 17.15 **Poster awards + closing remarks**
– Clinical research
– Basic research animal
– Basic research human
Chair: Antoine Adamantidis

17.15 – 17.45 **CNB Group leader's meeting**
on special invitation only
Chair: Tobias Nef

17.45 **End of Meeting**

General information

CNB Executive Committee

Tobias Nef, Sebastian Walther, Antoine Adamantidis, Urs Fischer, Thomas König, Beat Meier, Daniela Schweizer, Roland Wiest, Benoît Zuber

CNB Strategic Board

Claudio Bassetti, Hans-Uwe Simon, Tina Hascher, David Spreng, Britta Engelhardt, Jan Gralla, Stephen Leib, Fred Mast, Thomas Nevian, Andreas Raabe, Werner Strik, Daniel Surbek, Stefan Weber

Poster Award Committee

Maxime Baud, Carolina Gutierrez Herrera, Sonja Kleinlogel, Thomas König, Shankar Sachidhanandam, Smita Saxena, Leila Tarokh, Sebastian Walther, Roland Wiest

E-mail: romina.theiler@insel.ch

Registration

Please register on www.conftool.com/cnbam2019 by **May 12, 2019**. The participation is free of costs.

Abstracts, posters and talks

Language for abstracts, short talks, posters and symposia is English. The executive committee will decide about acceptance.

Please submit your abstract (free contribution) on www.conftool.com/cnbam2019. Deadline for abstract submission is **May 12, 2019**. Editing of submitted abstracts is possible until June 5, 2019.

When submitting an abstract please choose one of the three research categories which fits best your research topic: Clinical research, basic research animal or basic research human.

All free contributions will automatically be considered for poster presentation. Among all submissions, four outstanding abstracts will further be selected as short talks.

Authors will be notified by the end of May 2019.

Duration of talks: 10 min, and 5 min discussion.

The poster format is max A0 portrait (w84cm x h120cm).

Poster prizes will be presented by Antoine Adamantidis. All participants presenting a poster are eligible for it.

Poster prizes

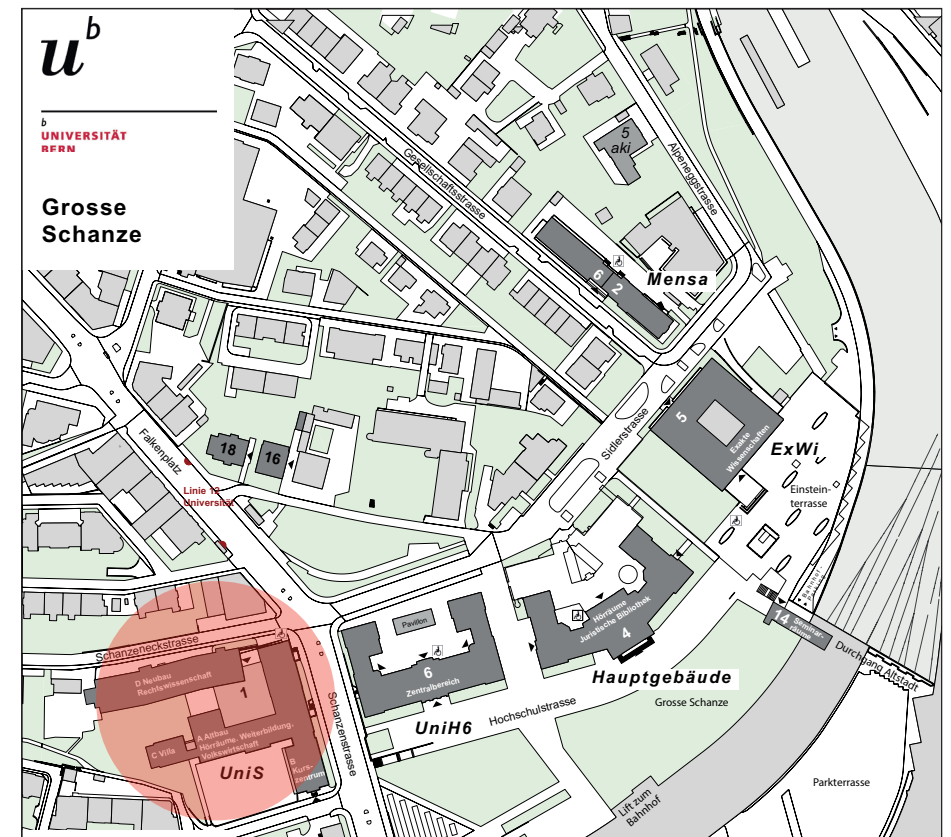

- Clinical research CHF 500.–
- Basic research animal CHF 500.–
- Basic research human CHF 500.–

Credits/Education

Graduate School for Health Sciences / ECTS: Full day participation as first author of poster presentation or talk will be credited with 1 ECTS-Point for PhD students.

Venue
