Venue: online: link will be send to registered participants

10:00 to 10:15 - online get together

Time	Speaker	Institution	Title
10:15-10:25	Daniel Legler, Jens Stein, Curzio Rüegg & Britta Engelhardt: Welcome		
10:25-11:10	Darren Gilmour	Dep. Mol Life Sciences, UniZH	KEYNOTE LECTURE: Mechanisms ensuring robust tissue migration through changing guidance landscapes

11:10-11:30 Coffee break with online networking

11:30-11:45	Lukas Altenburger	OMI, UniFR	The lymphoid microenvironment forces termination of T cell - DC interactions correlating with accelerated effector cell generation
11:45-12:00	Serena Melgrati	IRB	Marginal zone formation requires ACKR3 expression on B cells

12:00-12:45 Lunch break with online networking

12:45-13:30	Bernhard Wehrle-Haller	Dep. Cell Physiology & Metabolism, UniGE	KEYNOTE LECTURE: Revisiting the talin / integrin connection: not a fool's errand after all
-------------	-------------------------------	--	---

13:30-13:45 Coffee break with online networking

13:45-14:00	Adama Sidibe	Dep. Cell Physiology & Metabolism, UniGE	Role of integrin-dependent adhesions and adapter proteins in endothelial barrier function
14:00-14:15	Pauline Hélie	TKI, UniBE	Role of the brain barriers in regulating the pathways of central nervous system immunity
14:15-14:30	Federico Saltarin	TKI, UniBE	Melanoma brain metastasis: how do melanoma cells breach the blood brain barrier?
14:30-14:45	Nami Sugiyama Matsuda	Dep. Biomedicine, UniBS	Distinct contributions of partial and full EMT to breast cancer malignancy

14:45-15:00 Coffee break with online networking

15:00-15:15	Vincent Mercier	Dep. Biochemistry, UniGE	Endo-lysosomal pathway regulation by membrane tension
15:15-15:30	Christoph Matti	BITg	Interplay of GRK3 and β -arrestin in ACKR4 scavenging
15:30-15:45	Johannes Schittny	Inst. Anatomy, UniBE	A postnatal increase of the fractal dimension of the pulmonary rat acini correlates with the formation of a novel kind of micro-airway
15:45-16:00	Best junior presentation award & wrap up		

16:00 End of the meeting

organized by Britta Engelhardt (UniBE), Jens V. Stein (UniFR) and Daniel F. Legler (BITg)
